

Safety-Chef

Increase productivity and reduce discomfort

Available in both Standard and Linkable versions, our line of Safety-Chef kitchen mats provide superior traction in wet or dry conditions. These mats are perfect for cook lines and bar areas. Safety-Chef's drainage holes allow liquid and food to flow through the mat and away from the surface, while the excellent anti-fatigue properties provide workers with added comfort.

Features & Benefits

- Raised ridge design provides superior traction in wet or dry conditions
- Grease-proof terra cotta highly recommended for fry stations, cook lines and greasy industrial stations
- Great drainage, aeration, and worker anti-fatigue comfort
