

Safe Step Anti-Fatigue Mat

Increase productivity and reduce discomfort

Great for industrial environments, these all-rubber mats are ideal for personal workstations. Available in two thicknesses, you can select the level of cushion and height appropriate to your needs.

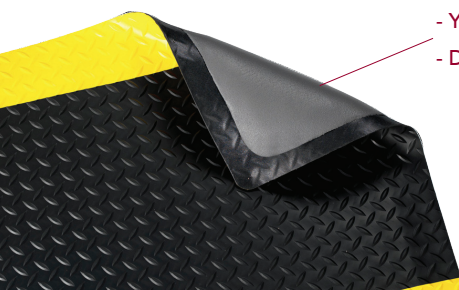

Features & Benefits

Reduce worker fatigue and increase safety with a personal workstation anti-fatigue mat.

- 9/16" chemical-resistant material
- Closed cell sponge base provides support to legs and back, reducing fatigue
- Available without safety border
- Durable vinyl surface resistant to most chemical spills
- Non-flammable with beveled edges and yellow borders provide additional safety
- Soft and resilient rebound properties are ideal for use in rigorous manufacturing environments
- Grease and oil resistant to help prevent slips

Placement

- Customer service counters
- Hotel registration counters
- Check out counters
- Building reception counters
- Work stations
- Hostess stations
- Industrial areas
- Assembly lines

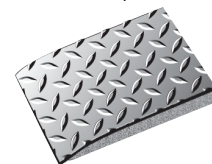

- Yellow border for additional safety
- Diamond plate surface pattern provides traction
