

# WaterGuard

Outdoor mats scrape shoes clean

The WaterGuard protects floors from the elements, trapping dirt and moisture on contact. 100% Nitrile rubber backing provides maximum durability, while the needle-punched polypropylene fiber scrapes shoes of dirt and debris. Each ridge of the WaterGuard is reinforced with rubber, keeping the scraping tips rigid enough to withstand high traffic areas.

## Features & Benefits

Protect your flooring by cleaning dirt and moisture from shoes as it enters your building.

- Castellated carpet scrapes dirt and debris off of shoes
- Dirt and water are trapped by polypropylene carpet ridges
- 100% Nitrile rubber construction for maximum durability
- Suitable as an indoor or outdoor floor protection solution
